Baljeet Singh

I'm a Web and Mobile Application Developer based in India 🇮🇳 with 10+ years of experience in the software industry.

My focus area for the past few years has been front-end development with Vue/Nuxt, but I'm also skilled in back-end development with Node.

👨‍💻 Work experience

Consultant

Efficient Cloud, *Remote – (Feb 2022 - Present)*

Focused on understanding cloud basics and supporting tasks related to cloud infrastructure setup, cost management, and resource allocation under FinOps principles

Technologies: Cloud, Finops, GCP, AWS

Technical Lead Frontend

C-Suite Circle, *Remote – (Sep 2021 - Present)*

Oversee frontend architecture and development for various web and mobile projects. Collaborate with design teams to translate complex requirements into

functional, responsive UI using VueJS, Ionic, and Node. Led initiatives to improve team workflow, ensuring quality code and project delivery.

Technologies: HTML, CSS, JavaScript, VueJS, Ionic, Node, Figma

Senior Frontend Developer

BizmerlinHR, Remote – (Mar 2020 - Aug 2021)

Developed a sophisticated visual editor for a multi-level IVR system, allowing users to drag and drop components to dynamically generate JSON needed for Aculab telephony services. Enhanced UI elements for the PON event management system (Exelon) and implemented design improvements for the Reach platform.

Technologies: HTML, CSS/SCSS, Bootstrap, VueJS, Vuetify, MxGraph, AngularJS, Figma

Freelance Full Stack Developer

Upwork, Remote – (Oct 2014 - Present)

Delivered end-to-end solutions for diverse clients, including building Single Page Applications with Angular, cross-platform mobile apps with Ionic, and backend systems using Laravel. Experience in API development and integrations, enhancing the user experience across web and mobile platforms.

Technologies: Angular, Ionic, Node, Firebase, Laravel, VueJS, Bootstrap

Instructor

Udemy, Youtube, Packt, Skillshare, Remote – (Dec 2017 - Present)

Teach coding and web development courses to a global audience. Topics covered include WordPress (PHP), Ionic Framework, Angular, and Node.js. My courses focus on practical, hands-on approaches to building real-world projects, helping students develop in-demand skills.

Full Stack Web Developer

Tomahawk Technologies Inc, Remote – (Mar 2016 - Jan 2018)

Led the conversion of ParkAdmin from SteelArrow to a modern Laravel and VueJS stack. This module, part of the Operations Commander platform,

simplified parking permit management, improving efficiency and scalability for clients.

Technologies: Laravel, VueJS, Bootstrap, jQuery

Industrial Trainer

Guru Nanak Dev Polytechnic College, Ludhiana, Punjab, India – (May 2017 - Jun 2017)

Conducted a two-month training program for students, covering the fundamentals of web development. Delivered in-depth lessons on HTML5, CSS3, JavaScript, PHP, and Photoshop, equipping students with essential skills for the industry.

Co-Founder/Full Stack Developer

PixelDrop Inc, Ludhiana, Punjab, India – (May 2014 - Apr 2016)

Co-founded and led design and development efforts for various web and mobile solutions. Worked on WordPress theme development, cross-platform mobile apps, and building web applications. Created the open-source Cinnabar WordPress theme framework and Ionic snippets plugin, streamlining development for future projects.

Technologies: AngularJS, Ionic, Laravel, Sass, ExpressJS, WordPress

Front End Developer

Adappt ltd, Remote – (Sep 2014 - Dec 2014)

Developed a single-page mobile website for Curation Corp, utilizing AngularJS for the frontend and NodeJS with Express on the backend. Built responsive layouts, swipeable views, and integrated desktop push notifications. Delivered features like infinite scrolling and data fetching from server-side APIs.

Technologies: HTML5, CSS3, Sass, AngularJS, NodeJS, ExpressJS

🛠️ Skills

💻 Technology

Platforms, Frameworks & Languages ⭐⭐⭐⭐⭐

HTML5, CSS3, Figma, Javascript, Typescript, Vue, Nuxt, Ionic, Node, Firebase, JAMStack

Technical writing ⭐⭐⭐⭐

I enjoy writing about technical subjects and I feel I can do a pretty good job about it! My motivation is explaining things in simple and practical terms and thus making things easier for others.
